

## House Rules of the Basel Paper Mill for Groups / School Classes

We look forward to welcoming you to our museum. To be able to ensure the smoothest, most comfortable process possible, we kindly ask the chaperones and/or teaching staff to ensure adherence to the following rules.

1. Both guided and unguided museum visits by groups or school classes must be registered in advance. This helps to avoid overcrowding of our hands-on areas. The maximum group size permitted is 25 people. For groups over 25 people, please check with us in advance.
2. Groups or school classes of people under 18 must be accompanied and supervised during their entire visit to the museum. Teachers and chaperones are responsible for any possible accidents or material damage to the museum.
3. The entrance sticker received at the ticket desk in the museum shop must be worn well-visible by all visitors.
4. Jackets/coats as well as bags/backpacks must be deposited in the cloakroom.
5. Eating and drinking is not permitted within the museum.
6. Smoking is prohibited throughout the entire museum.
7. The lift is predominantly for museum visitors experiencing impaired mobility as well as for transporting items. We kindly ask you to use the elevator only in exceptional cases.
8. In the museum's active-areas, hands-on participation is encouraged. We kindly request, however, that you respect the work areas of our craftsmen in the functioning workshops, and do not touch their work material. It is also prohibited to touch items on display in the museum's exhibits.
9. We strive to attend to you as best as possible in the hands-on areas. However, with overly large crowds, especially due to group visits, we cannot guarantee that all visitors will be able to use the marbling station or can receive a seal. If these stations are busy, we will ensure in all cases that for each school class a single paper will be sealed, and already prepared marbled papers will be handed out.

We thank you for your cooperation and wish you an exciting visit to our museum!
